

## World Maker

God, you are Lord of the earth, the heavens and all living things.

But why have you let your children be slaughtered by the blade of sin?

Why are you letting sin and darkness walk the earth?

You, Lord, are all powerful; you make the mountains move and the stars dance.

I trust you because you are Lord of all and you can do anything.

Please, Lord, help the people of Haiti to know you, help them to walk on the path of light and follow you.

Lord, you can move the universe by snapping your fingers; you can speak and the oceans will split; you have proven what you can do so I trust that you will keep the people of Haiti safe.

God, thank you for helping me see what I am made to do. I praise all that you have done for me and other people, Amen.
